### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Page 9, Line 3: Please replace the word "used" with --use--.
- Page 10, Line 15: Please replace the word "specials" with --special--.
- Page 11, Line 17: Please insert the word --to-- after the word "meant".
- Page 13, Line 13: Please replace the number "234" with "204".
- Page 13, Line 17: Please replace the word "identities" with --identifies--.

2. Claims 74-93 and 99-116 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Many different alarms and sensors have been used on absorbent products to indicate whether there has been an instance of incontinence in the wearer of the absorbable garment. To attach a transmitter to trigger a reader to play media based on the identity of the transmitting tag is not as common. The paper diaper added with barcode taught by **Tomotsune** [JP 2003-058759] (supplied by applicant) includes a diaper-like garment having a barcode in which media plays information based on the barcode. The amended claims presented by the applicant include a transmitter that

broadcasts a signal back to the reading apparatus, thereby prompting the reader to play media regarding the product or some other product. This combination is not found in an obvious combination in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

**Gemmell et al** [U.S. 6,360,181] collects data on use of various washroom products.
